

Positioned as an overhead reduction specialist, UnifiedSmiles helps its clients lower their costs through exclusive pricing on top-brand supplies and services, concierge-level service from a dedicated client services team, specials from partner vendors, and even assistance for start-ups.

UnifiedSmiles was founded on the vision that independent dental practitioners should have the same advantages as large corporate dental firms – without sacrificing their decision-making freedom. You may know UnifiedSmiles as a dental purchasing organization, where you can get discounted pricing on name-brand supplies, lab work and business services. While true, we're so much more than that! Here are some of the other benefits you receive as a UnifiedSmiles member.

1. Concierge-Level Service with Dedicated Client Service Support

Our knowledgeable "Overhead Reduction" team becomes an extension of your staff – answering questions and working on your behalf to uncover simple solutions to increase your profits. Since we're the ones looking for the very best deals, your staff can focus entirely on patient care.

2. Partner Vendor Specials

We have the best partner vendors. Not only do they offer high-quality products and services, but they also go above and beyond for our members. From discounted continuing education courses to networking seminars to exclusive package deals, our partner vendors share the love.

3. New Practice Start-Up Assistance

In the process of starting-up or taking over a dental practice? Depending on your eligibility, this package can include a free consultation with the UnifiedSmiles executive team, 50% off the regular membership fee for the first year, and if building a new practice, your UnifiedSmiles membership fees could be waived until the doors open.

4. Exclusive Pricing on Name Brand Products and Trusted Services

And of course, our members enjoy group purchasing pricing on products and services, such as:

- Dental Equipment, Drugs and Supplies
- Retail Products and Office Supplies
- Laboratory and Dental Refining Services

- Financial and Credit Card Processing Services
- Dental Equipment Repair
- Technology Services
- Continuing Education Programs
- HR Services and Employee Recruitment
- Marketing/Advertising Services
- Insurance
- Infection Control, Regulated Waste and Recycling Solutions

One Call. Big Savings.

Let us show you how much you can save. Simply call 844.US.UNITE or email info@unifiedsmiles.com to schedule your complimentary, no-obligation savings analysis.

Still not sure? See what our members have to say.

“We joined UnifiedSmiles when another vendor pointed out that we could save on many of the products and services we were already using. Not only have we saved over \$25,000 in our first year, but ordering is much simpler – a WIN-WIN! When you join UnifiedSmiles, you WILL save time, money and build a relationship with a qualified, knowledgeable team.”

- Suzanne Villani, Office Manager, East Islip Dental Care, East Islip, NY

“Our practice joined UnifiedSmiles because of the huge savings opportunities with Darby Dental Supplies, and since joining, they’ve also helped by introducing us to other quality product and services vendors. The result? We’re now saving thousands per year. I sincerely appreciate their on-going support and their commitment to helping our practice find savings. The whole experience is really easy and effective. I would recommend Unified Smiles to other dentists because they focus on reducing your overhead costs and continue to look for savings for the entire membership base.”

- Dr. Declan Devereux, Ala Moana Dental Care, Honolulu, HI
